- 3.2 Any extra weight beyond the $\pm 10\%$ of the weight mentioned in Annexure – 1 or the vehicle capacity as mentioned in clause no 3 of GTC for Transportation services (CSG-ST-001 Alt 00), whichever is higher, shall be paid on pro-rata basis.

In all cases of weight related invoicing, all invoices/ bills should be submitted with Weightment slip (computerised).

4. PRICE VARIATION CLAUSE FOR DIESEL

The freight charges mentioned in the price schedule shall be inclusive of variation in the Diesel prices of upto $\pm 5\%$ i.e. No change in the freight rates if the diesel price variation is within $\pm 5\%$.

The Diesel Price variation beyond $\pm 5\%$ shall be paid as per formula given below

$$\text{New freight charges} = \text{Old freight charges} + (33\% \text{ of old freight} \times (\text{new diesel rate} - \text{old diesel rate}) / \text{old diesel rate})$$

Benchmark Diesel rate: Rs. 46.15 Per liter

5. PERFORMANCE MEASURES

We intend to establish certain performance measures in the course of the execution of this contract which would cover two major aspects of Value Added Services: -

- 5.1 We are having the process of inviting bids through the e-auction platform, provided all necessary inputs in terms of the description of the consignment, tentative dimensions and weights, type and number of vehicles required, the place of origin and the place of destination.

It shall be your endeavor to bring forth your experience and capability in suggesting various approaches to reduce the number of vehicles as also economize on the type of vehicle to be mobilized for this purpose. **We would measure the reduction from the stated Type and / or Number of vehicles that would be mobilized in the course of executing this contract.**

- 5.2 The contract for Transportation of Goods is to facilitate our contractual obligations with our end customer. This contract being Turnkey in nature, the essence of such contract is the timely delivery and completion of the said project. In order to facilitate our meeting the contractual delivery and completion dates, it is essential for you to meet the required and stated Delivery Schedules.

We would measure the “On Time Performance” related to the Delivery of the Consignments under the contract.
